

FLEAT

Faith alone cannot
Leaders remove from hammock and cot
Except by training ignorant thought
And ensuring such thought is taught
To act proactively before 'tis too hot

Farmers in the fields die
Leaders in the scrapers lie
Every other will truth defy
Astonishingly amidst a cry
That demands only a try

Fortunately, we can transform
Lazy thoughts that conform
Expedient systems that never reform
Acts that only our planet deform
To thoughts, systems, and acts defying the storm

For all there is on our planet
Leaders of faith can set
Examples others want to beget
Averting the norms that have let
Terrorism on mother earth ornament

For I am a **FLEAT** graduate
Let it be my mission to inculcate
Everlasting change to the current state
And for My Lord evil, upon creation slate
Trusting in He that knows creation best
