**From:** C/O Fatimah Zahra (AS) College  
No.11 Addison Road  
Hatfield  
Harare

**To:** The Secretariat  
National clean Up Campaign Coordinating Committee/Religion(NCCCR)  
Old Shell House  
Harare

**REFERENCE; INTRODUCTION OF FAITH LEADERS ENVIRONMENTAL  
ADVOCACY TRAINING ( FLEAT-ZIM TRUST) AND SEEKING  
STAKEHOLDER ENGAGEMENT FOR PARTNERSHIP.**

Fleat Zimbabwe in its stake holder mapping and partnership identification exercise, has identified the NCCCR as a vital stakeholder and potential partner for programme implementation purposes.

Fleat Zimbabwe is a multi-faith environmental solidarity and collaborative network of willing faith leaders and communities in Zimbabwe, collaborating for Climate and Environmental Stewardship or Conservation Action. For more details about Fleat as an organisation, its Background, Vision, mission, Mandate, Values, Aims and Objectives, please find supporting document (s) attached.

In its areas of programming Fleat Zimbabwe mainly focuses on Advocacy and Training however it also has programmes to do with environmental conservation, community climate change resilience building ,waste management and is also involved in the **National Environmental clean ups.**

It is in these two areas of climate governance and leadership (Advocacy) and cleanups that we as Fleat-Zim see an opportunity to partner with NCCCR which is Coordinating similar programmes. In our advocacy programmes we also deal with Governance, Compliance, Disaster Risk reduction and Management, areas which may also be of interest to the NCCCR.

PK SK

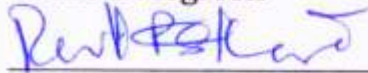

If this arrangement/agreement is agreeable, Fleat-Zim will second one or two of its staff to the NCCCR committee meetings that are held to prepare for national clean up events. This is in compliance with the National Cleanup Campaign Policy promulgated by the president of the republic of Zimbabwe-His Excellence ED Munangagwa to be held on the first Friday of each month, which shows that Fleat-Zim is a national patriotic organisation by Zimbabweans for Zimbabweans.

More details about other Fleat programmes can be made available upon request after all due diligence has been done. However as leadership we are available to provide any other details at a meeting ,if invited to do so.

Please Note that whilst we await for the aforesaid process Fleat Zim with Assistance from Environmental Management Agency (EMA) and other stakeholders has so far identified a HOT SPOT in Epworth that we have planned for clean up with support from Act Alliance- the first Friday of July (5 July 2019) in compliance to National Policy. We are available for your usual guidance and advice in identifying the areas and hotspots for cleaning up.

Your usual support is anticipated and appreciated.

Yours Evergreen
