

Do you have Faith in where your Eggs come from?

Natural Life Expectancy

Laying Hen Life Expectancy

Battery Caged

South African laws don't require labelling of eggs, and so consumers are being kept in the dark.

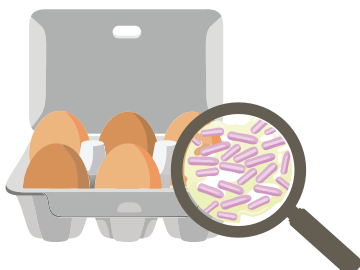

86% of hens in South Africa Live in Cages

Battery caged space conditions equate to 10 humans living in an elevator.

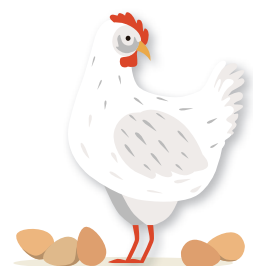

Why go Cage-Free?

Safe
Eggs have a lowered risk of Salmonella contamination.

Humane
Hens can walk around and spread their wings.

Healthy
Hens can nest, perch, dustbathe and stretch for comfort.
